the Québec City area, it's simple

QUÉBEC CITY'S IT SECTOR

# An environment that fosters growth

In Québec City, energy costs are low, which make it easy to store, transfer and process big data.

**1<sup>st</sup> Canadian pre-commercial corridor of 5G digital infrastructure\***

\*ENCQOR, 2018

# « Québec City is the right place, at the right time, with the right tools and the right people. »

- Simon Perreault, LogMeIn

With its research centres renowned across the globe and its data centers (tier 3), Québec City's IT sector is booming.

**30% less expensive** to conduct research and development in Québec City\*

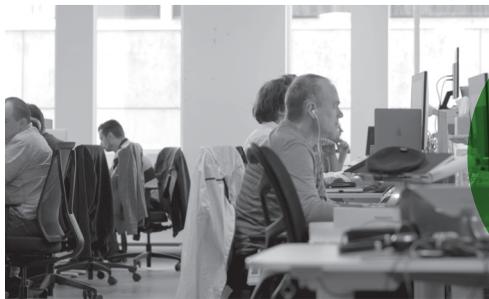

\*KPMG, 2018

# « Québec City, with its open-innovation ecosystems, is a tremendous springboard for business growth. »

- Martin Rivest, Thales

Founded in France and operating in Québec City since 2009, Thales is a worldwide leader in designing and building electrical systems for the aerospace, defence, transportation and security markets. In 2012, the company decided to establish its only North America research and technology centre (TRT) in Québec City. Over 50 scientists work at the centre to conduct experimental research in transportation, aerospace, defence and security.

Founded in 2003, LogMeIn is an American public company headquartered in Boston. Operating in Québec City since 2018, LogMeIn is a leading provider of SaaS and cloud-based remote connectivity services for collaboration, IT management and customer engagement. It is one of the 10 largest SaaS companies in the world and provides support for millions of consumers around the globe.
