

Thanks to its geographical location, Québec City is a major economic hub that is supported by a strong and diverse industrial landscape. These advantages convinced the Kerry Group to open a brand-new production plant in the Québec City region and helped Volvo/Prevost to position itself as a leader in global markets.

QUÉBEC CITY'S MANUFACTURING SECTOR

A stimulating environment

With a fast-growing economy that is still going strong for the past 20 years, Québec City, which is situated at the heart of North American markets, is fertile ground for businesses and the springboard to expand abroad.

**\$35.8B GDP

Québec City offers major competitive advantages to business and investors, which help to reduce operating costs, maximize profitability and benefit from tax measures to stimulate growth.

#1 in the world
for low operating costs
*KPMG, 2018

« Québec City's workforce is highly skilled, technically qualified, and located close to the United States. »

- André Amyot, Kerry Group

« Québec offers a true international potential. We are located in Québec, but 80% of our sales are actually outside of Canada. »

- François Tremblay, Prevost
